## Campaign Tops \$7 Million Mark with Teal Commitment

Advance commitments in Truman State University's "Bright Minds Bright Futures" campaign have now surpassed the \$7 million mark.

Through Nov. 20, a total of \$7,093,189 has been generated in cash, multiyear pledges and deferred gift commitments toward an overall goal of \$30 million. The five year campaign, which is early in its second year, continues through its leadership gift phase and will enter a broader public stage at a later date.

The campaign received its second \$1 million deferred gift commitment recently from John and Denise Teal of Elmore, Ohio.

The Mr. and Mrs. John M. Teal Scholarship is designed to support students at Truman State University who are honorably discharged veterans from any branch of the armed services and children of military personnel who have been killed or become permanently disabled in the line of duty. Financial need is also a primary consideration.

The scholarship will be created with a cash gift through Truman's "Bright Minds Bright Futures" campaign,

and matched dollar-for-dollar by John's employer, First Energy Corporation. The Teals have pledged to make the scholarship one of the University's largest with a \$1 million commitment through their estate plans.

A native of Kansas City, John "Mitch" Teal served three years of active duty in the Army in Germany. He utilized the GI bill to enroll at Northeast Missouri State University in 1975 and continued to serve as a member of the local National Guard unit. After graduation in 1978, John received a masters' degree in regional and city planning from the University of Oklahoma and in public administration from the University of New Orleans. He serves as a senior emergency response specialist with First Energy, the nation's fifth-largest investor owned electric system.

Denise Teal received Bachelor of Arts degrees in Spanish and Latin American Studies from Truman in 1977, and a Bachelor of Science degree in secondary education for Spanish and French in 1978. Denise began her law school at Loyola University in New Orleans, La., and completed her degree at the University of Toledo in 1987. She served the United States Attorney's Office in Toledo for 11 years and is currently a Master Gardener.

## Summer Internships Available at Presidential Library

Truman is pleased to announce the annual internship for two Truman State University students at the Truman Presidential Museum and Library, located in Independence, Mo. The internships have been made possible by a large endowment from the family of Fred and Ethel Schwengel.

The internships are for summer 2008, and are open to all Truman juniors and seniors who meet University requirements for an internship. Students can earn between five and 10 credit hours for this full-time internship. This is an eight-week unpaid internship.

The interns will be selected by a University committee and the Truman Library staff and may work in a variety of areas at the Museum and Library including archives, public relations, marketing, educational programming, museum development or visitor services. Assignments will be based on the interns' abilities and interests along with

the library's needs. The internships offer a five-hour (in-state) tuition scholarship.

Guidelines for the internships require that selected interns must "immerse themselves in the study of President Truman." At the conclusion of the internship, the intern will write a paper on his or her experiences at the Museum and Library and on a specific study of the Truman presidency. The internship schedule will allow time for each intern to research the project.

Potential interns must have strong communication skills, both written and verbal, strong organizational skills, the ability to work independently on multiple tasks, basic computer skills, dependability and self-motivation.

Applications must be received by Jan 31. For more information and applications, contact Jeff Gall, associate professor of history and social science education, at 785.7747 or [jgall@truman.edu](mailto:jgall@truman.edu).

## Truman Forensics Students Criss-Cross the Nation, Capture More Honors

Members of the Truman Forensic Union added seven new honors to this year's growing list recently, taking home awards at three separate tournaments in Illinois and California.

Debaters from the squad took some six awards at the Pat Kennedy Memorial Round Robin and the Paul Winters Invitational, both hosted by the University of the Pacific (Stockton, Calif.), Nov. 9-11. Dylan Rothermel, a senior economics major from Homewood, Ill., and Mark Buchheit, a sophomore history major from Carthage, Mo., reached the semifinals of the invitation-only Round Robin tournament on Nov. 9, before losing to a team from Rice University—the eventual champions. Only 12 teams from across the nation are invited to attend this tournament each year, and this is the third consecutive appearance the team has had in the tournament's elimination rounds. In the march to elimination rounds, Buchheit and Rothermel defeated several nationally-prominent teams including the team from the University of California-Berkeley.

Additionally, all three attending Truman debate teams reached elimination rounds of the Paul Winters

Invitational, on Nov. 10-11. Andrew Kindiger, a freshman English major from Kansas City, Mo., and Barbara Gillard, a freshman political science major from Jackson, Mo., reached the quarterfinals of the Junior Varsity division of the tournament, with Kindiger ranking as the top speaker in that division. In the Varsity division, Rothermel and Buchheit were joined by Sarah Backhaus, a freshman political science major from Liberty, Mo., and Dylan Clark, a freshman political science and philosophy and religion double major from Maryland Heights, Mo., in the first elimination round—the double-octafinal round. Buchheit narrowly missed earning a speaker award in the Varsity division, placing 11th.

Clark was also an octafinalist ("sweet 16") in Lincoln-Douglas debate.

Forty-two colleges and universities from throughout the United States attended the tournament.

Continuing the streak of freshman success, Rebecca Tasetano, a freshman political science major from Liberty, Mo., reached the final round of novice poetry interpretation at the Bradley University, LE Norton Invitational, Nov. 4.
