Paino Appointed Provost and Vice President for Academic Affairs at Truman State University

Truman State University announces the appointment of Troy D. Paino as provost and vice president for academic affairs, effective July 1, 2008. Paino was selected for the position after a national search. He currently serves as the dean of the college of liberal arts at Winona State University, a position he has held since 2004.

"I am excited that we were able to attract such a highly qualified applicant to join Truman's leadership team," said President Barbara Dixon. "Dr. Paino brings a wonderful balance of vision and creativity along with significant teaching and administrative experience to the position. Dr. Paino was very well received by the campus community during his interview on campus, and I am confident that the skills, experience and professionalism that he brings to the position will serve Truman well."

Paino began his career at Winona State University in 1997 as an assistant professor of history. He served as director of the paralegal program from 1997-2004, co-founder and director of the law and society

program from 1999-2004, and interim dean of the Darrell W. Krueger Library from 2005-2006. He was promoted to the rank of professor in 2007.

Paino's educational background includes a Bachelor of Arts degree in history and philosophy from Evangel University in Springfield, Mo., a juris doctorate from Indiana University School of Law, and a Master of Arts and Doctor of Philosophy, both in American Studies, from Michigan State University. Prior to arriving at Winona, Paino worked as a partner in the law firm of Bookwalter & Thomas in Indianapolis, Ind., from 1988-1991, and subsequently served as a teaching assistant and then instructor at Michigan State University from 1992-1997.

In the community, Paino works with the Board of the Great River Shakespeare Festival that helps raise \$500,000 annually to sustain the festival. He also serves on the Board of Directors for Lakeview Manor, Inc. and Summit Place West and the Winona Area Tennis Association.

Morin Appointed Associate Vice President for Enrollment Management

Regina Myers Morin will become Truman State University's new associate vice president for enrollment management, effective Jan. 17, 2008.

"Ms. Morin is known throughout the state and throughout the nation for her work in the field of enrollment management," said President Barbara Dixon. "We are very fortunate to have someone with her expertise and background in this critical position."

Morin, who was selected after a national search, is a graduate of Truman State University, where she received her Master of Arts and Bachelor of Science in Education degrees. Morin began her career in the field of admission at Truman State University. She spent a total of 13 years serving first as an admission counselor, then an assistant director of admission, and finally the associate director of admission. From October 1994 to May 1997, Morin served as the director of transfer

enrollment at Simpson College in Indianola, Iowa. Most recently, Morin has had a very successful career as director of admissions at Columbia College in Columbia, Mo., where she has served since May 1997.

Morin has served three terms on the Missouri ACT Council and is currently chair-elect. She is also involved in the ACT State Organization, American Association of Collegiate Registrars and Admission Officers, Missouri Association of Collegiate Registrars and Admission Officers, Missouri Association of College Admission Counselors and Missouri ACE Network.

She is a frequent presenter at state and national conferences and is a member of the Institute for International Education, National Association for Graduate Admission Professionals, Overseas Association for College Admission Counseling and the National Association for College Admission Counseling.

KKTR to Begin Digital Broadcasting Soon

KKTR, the Truman NPR affiliate broadcasting on the FM dial at 89.7, will be off the air today and possibly for the next three days while radio engineers change out the existing transmitter with a state of the art HD (Hybrid Digital) transmission system. Once KKTR returns to regular broadcasting, listeners will continue to receive NPR programming on their existing radios; however, in order to listen to the digital transmission, a special receiver is required. For more information about high definition radio, you can go to http://www.kbia.org/inside/faq/hd_radio.htm. The advantages of digital include the enhanced audio

quality and the ability to receive multiple channels of NPR programming. More information on those new channels is forthcoming. The KKTR digital conversion is possible, in part, through a \$78,000 grant from the Corporation for Public Broadcasting.

In addition, Truman's student station KTRM (88.7), is in line for a similar digital makeover. Barring no unforeseen engineering problems, KTRM hopes to return to regular broadcasting next week.

KKTR and KTRM will be the first stations in northeast Missouri to broadcast digital signals.

Elementary Students Donate Books

Teresa Heckert, professor of psychology and president of the Truman State University chapter of the Honor Society of Phi Kappa Phi; Lauren Caffey, a communication disorders graduate student and Phi Kappa Phi member; and Janet Gooch, communication disorders department chair and Phi Kappa Phi member; received more than 100 books from students at Ray Miller Elementary (RME) School.

RME students participated in a book drive sponsored by Phi Kappa Phi and the Communications Disorders Association (CoDA) to collect books for the Truman State University Speech and Hearing Clinic. More than 1,400 books were collected as a result of the drive.

Ray Miller Elementary School students (front row, left to right) Colin Terrell, Bobby Campbell and Cole Archer display donated books with (back row, left to right) Teresa Heckert, Lauren Caffey and Janet Gooch. The elementary students participated in a book drive for Truman's Speech and Hearing Clinic.

Grothe Receives Director's Award for Excellence in Interdisciplinary Research

Claire Grothe (left) receives the Director's Award for Excellence in Interdisciplinary Research from Sara Orel, professor of art, recently in Ophelia Parrish.

Claire Grothe, a senior history major from St. Louis, received the Director's Award for Excellence in Interdisciplinary Research for the spring 2007 semester.

The title of the award-winning paper is "From Glory to Devastation: Artistic Depictions of Nasser's Egypt, 1952-1974". Grothe wrote the paper in her Cultural Crossroads: Cairo JINS class, taught by Sara Orel, professor of art. The paper details the changing attitudes of the artistic community toward the Nasser regime.

Grothe is the daughter of Jim and Beth Grothe. She is currently a member of Phi Kappa Phi, Phi Alpha Theta and the Truman State University Historical Society. Grothe also volunteers at the Still National Osteopathic Museum at A.T. Still University.

Students Present Artwork Exhibit

The student artists of ART 315 are pleased to extend an invitation to "Phantasmagoria," an exhibition of artwork at Il Spazio.

These pieces were created to explore modernized mythologies, the fantastical in the every day and conceptual responses to the idea of fairy tales in contemporary life. What distinguishes a fairy tale from any other narrative? What are the hallmarks of our modern age? Can cynicism coexist with the suspension of

disbelief? And how can these ideas translate into visual art?

An afternoon reception will take place from 3:30-5:30 p.m. Dec. 10 in Il Spazio's back room to see how the artists of ART 315 respond to these questions.

The exhibit will be open during normal business hours at Il Spazio, 215 W. Washington St., until Jan. 14. For additional information, please contact Emily Booth, assistant professor of art and University Art Gallery director, at ebooth@truman.edu.

NOTABLES

Bradford Blackburn, assistant professor of music, presented a lecture/performance "The Music of Harry Partch-Corporality and Musical Gesture" at the 50th national conference of the College Music Society Nov. 18 in Salt Lake City. The lecture/performance was featured as part of the Contemporary Music series. Included in the presentation was a video clip of a performance given by Blackburn, **Joshua Baum, a graduate music student from Kansas City, Mo., and Megan Arns ('07)** of songs from Harry Partch's "Eleven Instruments." This rare performance of Partch's music was presented during the 2006 Truman State University New Music Festival and used replica Partch instruments that were designed and built by Blackburn.

At the Annual Meeting of the American Academy of Religion Nov. 17-20 in San Diego, **Lloyd Pfeuger, professor of philosophy and religion,** presented a paper for the Yoga in Theory and Practice Consultation, titled "Meditation and the Future of Yoga Studies" as well as a second paper for the Dharma Association of North America titled "Possession, De-possession, and Re-possession: What's Samadhi got to do with it?"

Dmitry Chernookiy, a junior chemistry major from Sedalia, Mo.; Harrison Black, a sophomore

chemistry major from Wichita, Kan.; and Katherine Hernandez, a sophomore biology major from Independence, Mo., presented posters of their research at the recent Midwest Regional meeting of the American Chemical Society in Kansas City, Mo. Chernookiy's poster was titled "Fabrication and Characterization of Surfaces with Heterogeneous Activity Using Scanning Electrochemical Microscopy;" Black's, "Crystal and 3-D Molecular Structures of Pesticides;" Hernandez's, "Manipulation and Modifications of High School and General Chemistry Experiments for Blind and Low-Vision Students." They were mentored, respectively, by **Brian Lamp, associate professor of chemistry; Russell Baughman, professor of chemistry; and David Wohlers, professor of chemistry.** Faculty in attendance at the meeting included Baughman, Wohlers and **Dana Delaware, professor of chemistry.** Wohlers also co-authored another poster titled "Multi-Sensory Learning Experience for Students Who are Blind or Low Vision in the Chemistry Laboratory" and co-organized a teacher's workshop on "Independent Laboratory Access for the Blind (ILAB)."
