Update: Tel-Alumni 1984

"Operation 1990." It's not a Prince song, a George Orwell novel nor a sci-fi flick, but a 10-year University project.

Otherwise known as Tel-Alumni, "Operation 1990" began in 1980 to raise \$2 million by 1990 for the University Endowment Fund. The annual fall event was created as a result of declining support from state and federal government. David Clithero, staff assistant in Alumni/Development, said.

"Tel-Alumni is a phanathon whereby student volunteers contact alumni of Northeast across the country to seek funds for the Endowment Fund," Clithero said. The Alumni/Development Office assisted by Student Senate put together the four-week project. This year, Tel-Alumni volunteers began calling Oct. 21 and continue through Thursday.

The Endowment Fund is a University savings account. "The interest earned from the account is applied to various areas such as scholarships, memorial loan funds, faculty support and a certain amount for unrestricted use at the discretion of the Board of Regents and President McClain," Clithero said.

Contributions may be restricted to specific areas or divisions, or may be put into the general fund. Academic divisions as well as student organizations are asked to volunteer their services as callers each year. This year, the divisions of Business, Fine Arts, Home Economics and Language and Literature, in addition to 30 student organizations, volunteered their members as callers.

The division members call alumni of their division in order to get contributions restricted to their area.

The event continues for 20 evenings consisting of three groups of callers, 10 members each, participating. After three weeks of calling, the top nine organizations and the top 30 individuals (based on accumulative contributions) are invited back for "All-Star Week" starting this evening. During this time, top callers compete for individual scholarships and a free evening at a rental hall, in addition to trophies. "They're (the callers) competing for prizes both as a group and individually. It's a good service to provide. They're helping their University and themselves," Clithero said. The academic division callers are not eligible for prizes because their calling is directed solely toward their respective divisions.

Prizes are not limited to the final week of calling. Four motivational prizes are given nightly and the top caller for the evening gets to draw from a prize box. At the end of the evening, all callers are given a three-minute call to anywhere in the United States.

Approximately 50 Kirksville businesses and organizations have donated both the smaller nightly prizes and the top organizations' prizes and individual scholarships. Last year's winners were Student Activities Board, winning free rental of Theta Psi, and Mary Ann McMasters, winning a \$620 scholarship donated by Kirksville Osteopathic Hospital-Laughlin. The three group and four individual runners-up are awarded similar prizes of a lesser value.

A change in the number of groups calling and an automated system has been organized in order to become more efficient this year, Clithero said.

"In the past, we've had two groups of 15 calling a night. This year, three groups of 10 will call so more groups have a chance to participate. Also, we are (Tel-Alumni) totally automated. Callers fill out one form instead of two or three and they don't have to stuff envelopes. Information goes straight to a computer operator. This allows us to contact more people, because they'll spend less time performing manual tasks," Clithero said.

More calling time is just what "Operation 1990" will need as the goal this year has been raised to \$100,000.

"Last year, our goal was \$83,000 and we got \$104,000. Based on how much we raised, we thought it was a reasonable amount. It gives us something to shoot for," Clithero said.

With 14 nights of calling complete Tel-Alumni had nearly reached the \$50,000 mark. "We're behind the daily average we need at this point. We need to average \$5,000 a night," Clithero said.

At this point the group leader is Phi Kappa Theta with \$2,880, with Delta Sigma Pi and SAB close behind. The individual leader is sophomore Kenny Ratliff with \$1,785. Sophomore Mary Ann Shramek and junior Lee Edwards hold onto second and third place, respectively.

Clithero is counting on a big total from "All-Star" week. Clithero also pointed out that many donations have already come in because of a pre-mailer sent out to give alumni a chance to donate early and not get called by the volunteers. These donations take away money that might have been gained through calls.

"I'm always the eternal optimist. I think we'll reach our goal," Clithero said.
