## University Foundation Gifts Continue to Grow

Ten \$1,500 Truman State University Foundation Study Abroad Scholarships are awarded each year. This year's recipients are pictured above (from left to right) Sara Walkerbach, Laura Presley, Anna Kuntz, Marjorie Wheeler, Melissa Jepson, Brooke Sherrard, Brianne Fulton, Emily Moffett, Arliss Gammill and Laura Weiersmueller.

The mission of the Truman State University Foundation is to encourage and administer private financial gifts in support of Truman. Last year, gifts to the Foundation totaled more than \$2.4 million providing support for student scholarships, improved technology, student loans for computers and study abroad and support for athletics and other initiatives.

For the 2001-02 term, over \$80,000 in scholarships will be given to incoming freshman in the form of 92 different awards, and \$210,700 will be disbursed to upperclassmen through 269 awards. (See insert for a complete listing of scholarship recipients.)

Through the new online Foundation scholarship application system, 3,456 applications were received from 476 students. Scholarships opportunities are available within each academic division and also for students of exceptional leadership or athletic ability. Need based awards are also provided.

The increase in the number of Foundation scholarships is proportional to the continual increase in Foundation assets. During fiscal year 1994 the Foundation recorded assets of \$5.52 million, while in fiscal year 2000 that number had grown to \$14.8 million, the largest market value in the Foundation's history.

Since 1994, the number of donors to the Foundation has grown from 4,715 to more

than 7,600; total gifts have increased from \$736,120 to \$2,408,113; Kirk Society members (those giving \$500 or more) have grown from 141 to 290; and planned gift commitments have increased from \$1.1 million to \$3.5 million. Of special note is the participation in the faculty/staff campaign, up from 28 percent to 73 percent. The Foundation is particularly proud of the message this conveys from the Truman community.

Nine new endowed scholarships, representing a minimum commitment of \$10,000 each, have been added to the Foundation since January 2000.

Additionally, Foundation monies are used to support faculty development, educational technology, divisional needs, internships and other activities related to Truman's mission. Each year a portion of the \$400,000-plus Kohlenberg Lyceum Series endowment is used to help bring cultural events to campus. Last fall the Class of 1950 Project provided over \$135,000 in support of the new Fine Arts building. And, the Truman's Board of Governors recently approved the naming of the Dr. Ruth Warner Towne Museum and Visitor's Center that will soon provide cultural enrichment to the area through a \$1 million bequest from Towne's estate.

Contact Dean Van Galen, Chief Advancement Officer, at 785.4133 for more information about the Foundation.

**Student Rec Field to be Ready by Fall**

Finishing touches will soon be made to the Student Recreation Center playing field behind Centennial Hall. Once the modifications are completed, the field can then be officially released by the architect to the University and readied for use next fall.

The field is designed to be a multipurpose recreational area and will be used for intramural outdoor soccer, sport club contests and drop-in recreational play. Signs will be posted indicating that priority will be given to Truman students, faculty and staff.

"This playing field will be reservable by special events hosted by our student organizations and campus departments," said Sue Limestall, Rec Center director. "I've had a number of students who have asked about it and are looking forward to using it for soccer and other sports."

The field is not reservable for outside groups, but as long as it is not in use by members of the Truman community individual students and other groups may have access to it. Once the Benton School is

demolished, the green space there will also be open for student use.

Although the Rec Center playing field was originally to have been available in fall 1999, several problems have precluded its release to the University including drainage problems that required corrective re-grading to the southwest corner of the area.

Because the field will be used for soccer and other running sports a special type of field turf was used and acceptable growth was not established by the projected date. The field was over-seeded and fertilized last summer so that the field would be ready for release in fall 2000.

A water main break occurred in early fall, however, and damaged a 6400 square foot area which was too late in the year to properly re-seed. According to the campus planner, the re-sodding, fence repair and other miscellaneous work should be completed by the contractor this spring.

Students, faculty and staff interested in reserving the field once it is officially open should call the Rec Center at 785.7739.

# Notables
