Glass Recycling Machine Newest Addition to Truman Recycling Program

What started out as a dream many months ago is now a reality. With the help of a grant from the State of Missouri Region C Solid Waste Management District, Truman State University is now offering area residents the option of recycling glass.

Truman applied for the grant to purchase the machine in January 2003 and received notification in late June from the Region C Solid Waste Management District that the grant was approved.

The machine, which arrived in late August, will grind glass to a fine sand that can then be used in place of regular sand, such as drainage fill, pothole filler, ice melt, and as an aggregate in roads.

Community support in this endeavor is critical to the success of the recycling effort. The University is not in a position to pick

up glass, therefore citizens must be willing to bring their rinsed glass to the Truman Recycling Center.

The Recycling Center is located in the Delaney Baldwin complex located off of LaHarpe, across from the Truman Tennis Courts. For more information about this project or other items Truman recycles, call Howard Worcester at 785.7672.

Members of the Kirksville community gather around President Barbara Dixon as she cuts the ribbon at the Truman Recycling Center for the glass recycling machine.

Missouri Government Internship Program Informational Meeting Scheduled

An informational meeting about the Missouri Government Internship Program has been scheduled for 4:30 p.m., Oct. 8, in the Student Union Building Alumni Room. The Missouri Government Internship Program offers a unique opportunity for students to intern at the Capitol in Jefferson City, Mo., with a public official, legislator or state agency during the spring 2004 semester. The internship, which is open to all majors, provides an inside look at state government.

The interns live in Jefferson City and receive a stipend of \$2,200. Interns may

earn up to 15 hours of credit.

All juniors and seniors are encouraged to apply. Applications are available in the Public Relations Office in McClain Hall 102 or online at http://career.truman.edu/student/internship/mogov_app.pdf. Completed applications are due by Oct. 17 in MC 102. A screening committee will review the applications and interviews will be conducted at the end of October for the spring 2004 legislative internships.

Interested students can contact Candy Young at 785.4650 or Heidi Templeton at 785.4016 for more information.

ACUBE Conference Comes to Truman for 47th Annual Meeting

The Association of College and University Biology Educators (ACUBE) will be having their annual conference Oct. 9-11 on Truman's campus. The conference, "Biology for Contemporary Living," will include events across campus. The opening session will take place Oct. 9 in Violette Hall 1000. Workshops, oral and poster presentations, and exhibits will take place Oct. 10-11 in the Student Union Building.

Keynote speaker Michael Kelrick, professor of biology, will be speaking on "When the Exotic Becomes Invasive: Familiar Questions wit' Stwange Anthers" at 8 p.m., Oct. 9, in Violette Hall 1000.

Judy Dilts from William Jewell College will present "The Challenges Ahead in Educating 21st Century Biologists" at 1 p.m., Oct. 10, in the Student Union Building Georgian Room. Philip Wilson from Penn State College of Medicine will talk about "Kirksville's Harry Laughlin (1889-1934): Applying Classroom Genetics for the 'Betterment' of Humanity" at 7:30 p.m., Oct. 10, in McCreight Auditorium at A.T. Still University of Health Sciences.

ACUBE was first established in 1957 as the Association of Midwest College Biology

Teachers (AMCBT). In 1997, they changed the name to ACUBE to reflect the organization's growing national membership.

The objectives of ACUBE include to further the teaching of the biological sciences at the college and other levels of educational experience and to bring to light common problems involving biological curricula at the college level and by the free interchange of ideas; endeavor to resolve these problems. Additional ACUBE objectives are to encourage active participation in biological research by teachers and students in the belief that such participation is an invaluable adjunct to effective teaching and to create a voice which will be effective in bringing the collective views of the teachers of the biological sciences to the attention of college and civil government administrations.

The lectures are open to the public and those attending do not need to be a member or registered for the conference.

For more information, contact Nancy Sanders, associate professor of biology and the local arrangements chair, at 785.4619, or by e-mail at nsanders@truman.edu.

Dare to be Featured Technology Champion

Sherry Dare, senior teaching and learning technology specialist, is the featured Technology Champion for the week. Dare is the Tech Champ responsible for updating, maintaining, troubleshooting and administrating the BlackBoard course management software that many Truman professors, students and staff use regularly. While it is not her only responsibility on campus, it is certainly one which impacts many courses.

Truman has had BlackBoard (accessible online at <http://bb5.truman.edu>) since 1999, and approximately 35 percent of faculty use it for their courses. It provides instant access to syllabi, course documents, class discussions, class group work, and for

e-mailing class notices. Dare is responsible for insuring all of this happens and solves any problems related to its use. According to Dare, one of the most ingenious uses of BlackBoard is for late evening study sessions involving professors. By setting up a time in the evening to be available in the BlackBoard chat room, professors are able to provide help at a time when many need it most, and fellow students also have the opportunity to help one another out.

The most common problem for students regarding BlackBoard is remembering their password. For faculty, it is how to put their course on BlackBoard. If you have questions, Dare is available by phone at 785.4026 or by e-mail at sdare@truman.edu.

United Way Campaign at Truman Begins

This year the Truman campus United Way fund drive kicked-off with a workshop for group leaders. Leaders are contacting Truman employees to give them the opportunity to contribute toward the support of any one or all of the 14 local agencies served by the Adair County United Way.

Truman employees may contribute by using payroll deduction. A pledge of \$104 gives each Truman employee an entry into the draw-
