Northeast Missouri State University Lyceum Series presents

William F. Buckley Jr.

REFLECTIONS
ON CURRENT
CONTENTIONS

8 p.m.
October 20, 1988
Baldwin Auditorium

Free tickets are available for student, faculty and staff in the Student Activities Office, SUB or at the door.

Lyceum Features Quartet

The Lyceum Series will present the Amabile Piano Quartet in concert at 8 p.m., Wednesday, Oct. 26. Free tickets for students, faculty and staff will be available Oct. 21 and 24-26 in the Student Activities Board Office, SUB, or at the door. Financial assistance has been provided by the Missouri Arts Council, a state agency.

Reflections On Current Contentions

It is difficult to describe the upcoming Lyceum Series performer. He is editor of a conservative journal. He is a syndicated columnist. He is the host of a weekly television program. He is a best selling author. He is William F. Buckley Jr., and to say the least he is a man of diverse talents.

Buckley will discuss "Reflections on Current Contentions" at 8 p.m., Thursday, Oct. 20, in Baldwin Auditorium. Free tickets are available for students, faculty and staff in the Student Activities Board Office, SUB or at the door.

After graduating from Yale University, Buckley founded the journal *National Review* in 1955. More than 30 years later, the journal's popularity remains strong. President Reagan has called *National Review* his favorite magazine.

Just seven years after *Review* was started, Buckley began his syndicated column "On the Right," which presently appears three times a week in more than 300 American newspapers and dozens of others worldwide. He has been named the Best Columnist of the Year and a recipient of the Distinguished Achievement Award in Journalism. Buckley has also received the TV Guide Award for the Best Television Interviewer and an Emmy for program achievement for his work as television host of his weekly show "Firing Line."

Buckley began "Firing Line" in 1966. By 1971, the program was carried coast to coast. Political leaders throughout the world have appeared as

Buckley's guests including the past four presidents of the United States. In 1983, the International Platform Association named Buckley the recipient of the Ralph Waldo Emerson Award as the top public speaker in his field.

As an author, Buckley has met success from simply telling about himself and his extraordinary experiences. Two of his best sellers, *Atlantic High* and *Airborne*, are based on his travels. He has made three transoceanic sailing voyages and journeyed to the South Pole. Other notable works by Buckley, just to mention a few, include *God and Man at Yale*, *Right Reason, Overdrive* and *The Unmaking of a Mayor*.

Perhaps author Kurt Vonnegut best describes William F. Buckley Jr. in a review from Buckley's *A Hymnal* in *Politics Today*. Vonnegut wrote:

"He is a superb sailor and skier as well—and multilingual, and a musician, and an airplane pilot, and a family man, and polite and amusing to strangers. More: he is like the Yale-educated hero of his novels, startlingly good-looking. His distinctly American features are animated, but tempered with a certain shyness, a reserve. (The last nine words are Buckley's own gloss on the good looks of the hero, Blackford Oakes.)

"So whenever I see Mr. Buckley, I think this, and word of honor, without an atom or irony: There is a man who has won the decathlon of human existence."

"Issues In Business"

The "Issues in Business" forum will present Martin P. Eisert, senior vice president of human resources at the Erie Insurance Group, and John S. Durkin, president of IVAX Industries.

Eisert will speak on "A Critical Understanding of the Change Process" at 7 p.m., Wednesday in the SUB Activities Room.

Eisert is a graduate of Gannon University in Erie, Penn., with a degree in English literature. He began with the Erie Insurance Group as an underwriter when he was asked to establish the human resource division. Currently, he manages the human resource division and oversees long range company planning, building design, and layout and construction.

Durkin will speak on, "Opportunities for a CPA Outside Public Accounting" at 9:30 a.m., today in the SUB Activities Room.

Durkin received his bachelor's from Michigan State University in 1967. In 1971, he earned his CPA from the state of Ohio and began his career with Arthur Anderson & Co. In 1985, Durkin accepted the position of president for IVAX Industries in Upper Saddle, N.J.

Both lectures are free and open to the public.

Missouri London Program

The Missouri London Program (MLP) is a study abroad program. Barbara Ralph, program coordinator of MLP will visit campus Tuesday from 2-5 p.m. and Wednesday from 9 a.m.-noon. Students interested in the program should speak with Barbara Ralph, who will be available at a table on the main floor of the SUB at the scheduled times.

Through MLP, students may earn

from 12-15 academic credits that may be used to satisfy their degree requirements. Courses offered for the spring semester include economics, history, political science, philosophy, management and English. The courses are taught in London by faculty from the Missouri universities that are members of the Missouri Consortium for International Studies. The cost of the program

is approximately \$3,300 per student for 16 weeks. This cost does not include the student's regular tuition, registration fees at NMSU, food or round-trip airfare to London. Financial aid is available to eligible students. For more information, contact Charles Roome, assistant professor of geography, A/H 224, 785-4648.

Concert Features Jazz Groups

The University jazz ensembles will feature Artist-In-Residence Willie Thomas on their first concert of the season at 7:30 p.m. tonight in Baldwin Auditorium. The concert is free and open to the public.

Thomas, an alumnus of the Woody Herman Thundering Herd and a recording artist of international stature, returns to campus for the third year as artist-in-residence in the Division of Fine Arts.

All three university big bands and the combo will share the concert program. The Stage Band, directed by Greg Jones will play "Sittin' Pretty" by Thomas, "Solo Flight" by former

1,000 Hills Summer Jazz Camp faculty member Rick Stitzel and "Bundle O' Funk" by Count

Basic's composer Sammy Nestico.

The Jazz Lab Band, directed by Jeff Hinton will play the Basic classic "Cherry Point," a modern jazz/rock ballad "Everything Must Change," and the Miles Davis standard "Milestones."

The University Combo will present three compositions—their first formal concert since they won first place in the prestigious Wichita Collegiate Jazz Festival. As winners, the Combo was featured in the finale concert with Doc Severinson and the Tonight Show Band.

The last segment of the concert will feature the NMSU Jazz Ensemble, directed by Roger Cody, professor of music. The Ensemble will perform a set of pieces by contemporary West Coast jazz composers. Two numbers, "The Shadow of Your Smile" and "Secret Love," will feature Thomas as soloist.
