## Bank Midwest pledges \$5,000 to the Gardner Track

Thanks in part to the generosity of several local businesses, such as Bank Midwest, and Northeast alumni, the University is nearing its goal of raising \$160,000 in private funds for the construction of the Kenneth L. Gardner track. The eight-lane, all-weather surface track has been named in honor of Kenneth L. Gardner who coached track and served as athletic director at Northeast. Gardner died in February 1992.

"It is such a thrill to have the support of the local businesses and the Kirksville community in building something that will truly honor a long-time friend of the University and the Kirksville community," said Shag Grossnickle, Bank Midwest board member and member of the Gardner Track Committee.

According to Athletic Director Walter H. Ryle, construction of the new track is scheduled to begin in spring 1996. In addition to serving the needs of intercollegiate athletics and numerous academic programs at Northeast, the new facility will provide a safe and attractive setting for recre-

ation, walking, running and jogging for the entire University community and the citizens of Kirksville.

If you would like to support the Gardner Track project with a tax-deductible donation, contact Ryle at the NMSU athletic office at 785-4235.

## Northeast to participate in Medical Scholars Program

Northeast has been selected to participate in the University of Missouri-Columbia School of Medicine Medical Scholars Program, a pre-matriculation program for rural students. This program is designed to address the declining level of health care available in the small towns and rural areas of Missouri. Two advancing freshmen, plus two alternates, will be selected for this program annually, beginning this summer. Students selected for this program will be offered guaranteed acceptance to the UMC School of Medicine conditional on their achieving certain academic standards.

Northeast participants will be involved in an enrichment program conducted under the auspices of the Kirksville College of Osteopathic Medicine. The program will include opportunities to participate in office and/or hospital practice and possible employment in area hospitals. Periodic activities at the UMC School of Medicine will be scheduled to include seminars and social events.

L. Scott Ellis, professor of biology, has been selected to be Northeast's point of contact for students interested in and participating in this program. Five students will be selected this summer for interviews in the fall with a committee consisting of two UMC Medical School faculty, alumni and Ellis.

Acceptance to this program is based on high academic achievement, commitment to a career in medicine, possession of personal characteristics expected for quality physicians and a small town or rural background. Specific requirements are: an ACT composite score of 30 or higher; evidence of high academic achievement during high school; evidence of high academic achievement during the first year of college; evidence of leadership and interest in a variety of extracurricular activities; and, achievement of specific MCAT scores during their junior year of college. Preference will be given to students who reside in communities of 12,000 people or less.

Application forms for the Missouri Medical Scholars Program can be picked up in the Vice President for Academic Affairs Office, McClain Hall 203. They are due to Ellis by June 15, 1995. ☛

## Former Middle East hostage Terry Anderson to speak on campus

Terry Anderson

Former Middle East hostage Terry Anderson will share his experiences and vision of the future at 7:30 p.m., April 12, in Baldwin Auditorium. Anderson, who made his mark as a journalist, was raised in Batavia, N.Y. He served in the Marines for six years, stationed in Vietnam and Japan. He covered the Far East and South Africa for Associated Press before being assigned to Beirut.

Anderson was covering the dangerous streets of Beirut as chief Middle East correspondent when he was taken hostage by the Shiite Muslims. For 6 1/2 years, Anderson

## Harter named Educator of the Year

Lynn Harter, instructor in communication, was named the 1995 Educator of the Year at a banquet on April 4. This award, which was presented for the seventh time, was sponsored by Alpha Phi Sigma national honorary scholastic fraternity, Pershing Society, Student Senate and Phi Eta Sigma freshman honorary fraternity.

Harter received her bachelor's and master's degrees from Southwest Missouri State University. This is her first year teaching at Northeast. She serves in an advisory capacity to Sigma Sigma Sigma and Sigma Kappa social sororities, and Lambda Pi Eta communication honorary society.

The five other finalists, chosen from 29 nominees, were Brent Buckner, assistant professor of biology; Amada Crane, instructor in communication; Yinfa Ma, assistant professor of chemistry; Tim McLendon, instructor in mathematics; and Anne Moody, assistant professor of chemistry. Criteria for selection of the Educator of the Year award included: instructor demonstrates learning across the curriculum, availability of the instructor to students, rapport with students and creativity in the classroom.

Educator of the Year Committee chairperson, Melisa Rothenberger said, "All six finalists were very worthy of this award and this award is a great way for students to thank their educators for all that they do."

Harter likens her teaching philosophy to traveling. "You learn more about a road by traveling it than by consulting all the maps in the world. I have learned more about teaching by actually doing it than from any class about how to be an educator. I have learned from experience and am continuing to do, so I try to provide realistic experiences for students in my classes where they are asked to apply academic material to the real world." ☛

endured a cruel Middle East captivity that tested his resiliency and resourcefulness on a daily basis. He suffered from adverse conditions including beatings, being chained to a radiator and even a mock execution.

Since his release in 1992, Anderson has emerged as a powerful advocate for human rights and political change, founding New York Renaissance, a grass-roots organization dedicated to reform in government. He currently resides in a suburb of New York City.

Admission is free with a student ID and \$4 for the general public. There will be a reception and book signing immediately following the lecture in the SUB Alumni Room. ☛

## Native American heritage storyteller to present

The University Speaker Series is sponsoring a presentation by Gayle Ross, a Native American heritage storyteller April 20. Ross, one of the best-loved and most respected storytellers to emerge from the current surge of interest in this timeless art form, will speak at 8 p.m. in the SUB Activities Room.

Ross is a descendant of John Ross, the principal chief of the Cherokee Nation during the infamous "Trail of Tears." Her grandmother told stories and it is from this rich Native American heritage that Ross' storytelling springs.

What began as a childhood love of Indian legends and fairy tales grew into a longtime "hobby" of collecting and telling. In 1978, Ross left her previous career in radio and television to turn her full energies to storytelling.

"Storytelling is much more than just a profession. In its highest form, it is no less than a calling, a life's work," Ross said. "Throughout history, storytellers have sought to entertain, educate and enlighten, preferably simultaneously. Stories have a life and a power of their own. They work their magic in people's lives in many ways. By telling the legends and myths of the native people of this continent, I hope to convey some of the sacred feeling, love and respect which those people held for the land." ☛

## Jazz drummer to perform with NMSU Percussion Ensemble

On April 11, jazz drummer Jim Chapin will visit campus. World renowned jazz drummer Chapin will perform with the NMSU Percussion Ensemble at 8 p.m. in Baldwin Auditorium. The program will feature the Concerto for Drumset and Percussion Ensemble by John Beck.

Chapin will also appear at 9:30 p.m. in Ryle Hall lounge as part of a jazz combo. His schedule includes a 12:30 p.m. rehearsal with the Northeast Percussion Ensemble, and lessons and master classes with Northeast and local drummers.

Chapin, who has written two books and released many albums, is known for his technique of drumming referred to as "coordinate independence." As outlined in his books, this is the ability to play a different beat in each hand simultaneously. Development of this technique has lead him to be considered one of the fastest and most skilled drummers today.

Chapin has been performing for 50 years, after falling in love with jazz drumming in his youth. He has performed with artists such as Simon and Garfunkel, Tommy Dorsey, and Woody Herman, not to mention Chapin's sons, Tom, Steve and the late Harry Chapin. Chapin's love of jazz began when he first heard well-known drummer Gene Krupa, who ironically later became one of Chapin's students.

Still going strong, Chapin performs regularly with the Jim Chapin Quartet and the Chapin DeRosa Orchestra. ☛

President Jack Magruder presents a certificate of appreciation from the Florida Collegiate Consortium for International/Intercultural Education to Patrick Lecaque, associate professor of French and director of the Center for International Education Abroad. The Consortium, which represents 21 Florida colleges and universities, recognized the significant contributions to international education made by Lecaque.

## Jessie Benton Frémont comes to Kirksville

Sally Roesch Wagner as Jessie Benton Frémont

Jessie Benton Frémont, the daughter of long-time Missouri Sen. Thomas Hart Benton and wife of explorer John Charles Frémont, will come back from the 19th century for a visit to Kirksville April 11. Frémont, as portrayed by Sally Roesch Wagner, will give a public program about her life and times at 7:30 p.m. at the Kirksville Junior High School Auditorium.

During her lifetime in the 19th century, there were few women in America as well known and respected as Jessie Benton Frémont. Yet today her name is little known, even in her home state of Missouri. Jessie Benton Frémont was the connecting link between her father's vision of national expansion and her husband's explorations that opened the West to white settlement.

Veteran Chautauquan Wagner brings Frémont to life "with a vital stage presence" and "a personal wit that enlivens the character," according to one critic. Wagner's doctorate from the University of California-Santa Cruz was one of the first in the nation awarded for work in women's studies.

Wagner's program begins with a presentation by Frémont in costume and character. Audience members will be able to ask her questions and then visit with the scholar afterward.

The program is made possible by a grant from the Missouri Humanities Council, an affiliate of the National Endowment for the Humanities. The Council recently awarded a \$9,202 grant for a Chautauqua tour of six Missouri towns. Local hosts are the Adair County Historical Society, Adair County Public Library and Northeast Missouri State University. ☛

## Student receives Yale Fellowship

Senior Adam Marchand receives congratulations on being awarded a Fellowship from Yale University. Pictured are (l-r) President Jack Magruder, Taj Hargey, assistant professor of African history, Marchand, and James Lyons, head of the Division of Social Science.

Senior Adam Marchand will continue his education at Yale University this fall, thanks to a fellowship from the Ivy League school. Marchand graduates in May with a Bachelor of Arts degree in history and minors in French and African/African-American studies.

While at Yale, he will pursue his doctorate in African history. The fellowship covers all tuition expenses and a \$5,000 stipend for four years. Marchand said he hopes to become a university professor with his degree.

Taj Hargey, assistant professor of African history, said Marchand's achievement shows "practical, concrete evidence that we are a leading university of national recognition. I feel very honored and privileged to be associated with this achievement."

Marchand said the "small student-teacher ratio, (and) the close working relationship with the professors" at Northeast has prepared him for Yale. Marchand decided to attend Yale because "(it) has the number one rated history department in the U.S.; it's very promising."

While at Northeast, Marchand has been active in Phi Alpha, Adair County Historical Society, NEMO Greens, OSCAR, NEMO Islamic Alliance, NEMO Singers and the intramural soccer team. "Some of your best opportunities to learn are outside the classroom," Marchand said about his activities.

Hargey said "(Marchand) is an outstanding, remarkable all-around student."

# CS-L

## Expands Services

The Center for Service-Learning (CS-L) is expanding its operations to give Kirksville and Adair County residents an opportunity to become community volunteers.

The CS-L was created in 1991 to provide volunteer opportunities for Northeast students to help them incorporate what they are learning in the classroom and what is actually happening in the community around them.

The CS-L is now expanding its efforts to act as a referral for local residents interested in volunteering their time.

"Although we currently have about 600 students who volunteer in many different community activities, we believe that the CS-L can play an even greater role in this community by acting as a referral for the citizens of Kirksville and Adair County," said CS-L Director Robert Stephens.

Although the CS-L will not actually arrange the appointments with the service agencies or the community organizations in need of volunteers, they will provide residents with the appropriate names and telephone numbers. Area residents interested in volunteering their time can contact the CS-L at 785-4572. ☐

# Northeast Notes

The Second Annual NMSU Child Development Center rummage sale will be held April 22 from 8 a.m.-noon at the CDC. More than 30 families have donated items. All proceeds will go toward the expansion of the CDC children's library.

KNEU is accepting applications for the 1995-96 school year. Paid management positions include: promotion director, sales manager, sports director, music director and news director. Volunteer applications are also being accepted for news and sports anchors and disc jockeys. Deadline for paid positions is April 17 and deadline for volunteer positions is April 28.

The Division of Social Science is conducting a workshop titled "Deciding About Graduate and Professional Schools" for sophomore and junior social science majors. The workshop will outline the early steps students must take to keep their graduate school options open. The workshop will be held April 19 at 1:30 p.m. and 2:30 p.m. in the SUB Conference Room. Students may attend either of the two sessions scheduled.

NEMO Recycling will be removing recyclable material from the Northeast campus for the next 45 days. They will accept almost all paper and cardboard placed in the recycling containers. Examples of paper not to be placed in the container are hand towels, tissues and food wrappers.

The *Apprentice Historian* has issued a call for papers. Any student regardless of class rank or major may submit historical essays of 18-24 pages in length. They should be double-spaced, unmarked and properly notated. Three copies of the essay should be submitted to John Ramsbottom, associate professor of history, McClain Hall 207C.

The 1995 1000 Hills Summer Youth Program will be offering the following camps: band camp I and II, flag, drumline, drum major, speech and debate, piano and cheerleading. Camps are open to junior and senior high school students. For additional information or an application, contact Paula at 785-4572.

The SUB is looking for scholarship workers for the 95-96 school year. Job duties range from office to maintenance work. Interested students can check with the SUB Office for specific opportunities.

Reflective seminars for students to share their volunteering experiences will be held on April 17 and 18. Contact the Center for Service-Learning at 785-4265 or 785-4572 for more information or to sign-up.

1994 ECHO Yearbooks are still available to all faculty, staff and students. Books can be picked up from 10 a.m.-3:30 p.m. daily in the ECHO office, lower level SUB.

# Scholarship Opportunities

For more information or applications for the following opportunities, contact the Financial Aid Office, McClain Hall 103.

1. The Missouri Women in Energy Scholarship applicants must be of junior or senior status and enrolled full-time in a business, education, engineering, journalism or science degree program. The deadline is April 24.

## From the University Career Center

For information about and applications for the following opportunities, contact the University Career Center, 785-4353.

The Sports National Seminar for 1995 will be held April 21-22 in Los Angeles. Past seminars have had representation from more than 1,000 different sports organizations and companies including ESPN and the Super Bowl Committee. Areas covered include: professional teams, sports marketing and media, event management, sporting goods, and athlete representation.

The Office of Personnel Management has new information regarding important changes to the Federal Student Employment Program. The program offers students an opportunity to be exposed firsthand to the work of the national government.
