PHI MU ALPHA JAZZ FESTIVAL SET FOR FEB. 27

Award-winning music will fill Baldwin Auditorium during Phi Mu Alpha's 42nd Annual Jazz Festival.

Jazz tenor saxophonist Donny McCaslin will perform with the Truman Jazz Ensemble at 8 p.m. Feb. 27 in Baldwin Auditorium.

McCaslin is one of New York's most in-demand tenor saxophonists. On his latest Arabesque release, "The Way Through," the Brooklyn-based artist continues to defy labels, proving he can unearth musical truth in any medium.

The recording earned critical praise in JAZZTIMES, which called it McCaslin's "most fully realized project to date.... McCaslin blends his inside and outside sensibilities into one sumptuous and satisfying package.

"McCaslin stands poised to be one of the flame bearers of jazz in the twenty-first century. A well-equipped, immensely talented musician with seemingly limitless technical expertise, he consistently proves himself to be much more than merely a gifted technician."

Tickets can be purchased at the door or in advance by contacting Michael at 630.303.3537 or mak6447@truman.edu.

Walker and Doris Allen Fellowship for Faculty Excellence Recipients Announced

Three Truman faculty members, Maria Nagan, John Quinn and Jeffrey Vittengl, have been honored with the Walker and Doris Allen Fellowship. President Darrell W. Krueger, along with Provost and Vice President for Academic Affairs Troy Paino, surprised the faculty members Feb. 16.

The \$10,000 Walker and Doris Allen Fellowship recognizes outstanding faculty members who have greatly contributed to the success of the University and its students.

Maria Nagan began teaching at Truman in the fall of 2000 as a lecturer. The following year she was promoted to assistant professor of chemistry and then associate professor of chemistry in 2006.

She has a Ph.D. in chemistry from the University of Minnesota, Twin Cities, with specialty areas of biology and physical chemistry. She earned her bachelor's degree from Grinnell College in Iowa. Her research interests include molecular dynamics simulations of RNA and protein-RNA complexes, particularly those containing modified nucleic acid bases.

John Quinn has been at Truman since the fall of 1996. He majored in history and English at St. Vincent College (Latrobe, Pa.) and obtained his master's and Ph.D. in political science from UCLA.

In addition to his time at Truman, Quinn also taught at the University of Ghana-Legion for a semester and spent three years as a Peace Corps Volunteer in Zaire, now the Democratic Republic of Congo. His primary research agenda centers on

the political and economic effects of majority state ownership of industry, mining or oil in Africa.

Quinn is the author of "The Road Off Traveled: Development Politics and Majority State Ownership of Industry in Africa." He also has

published articles in such journals as *International Interactions*, *Party Politics* and *International Politics*.

Jeffrey Vittengl, associate professor of psychology, has been at Truman since 2001. In addition to a bachelor's and master's in psychology, he earned his Ph.D. in clinical psychology at the University of Iowa. His research interests include assessment and psychometrics, social-interpersonal functioning in anxiety and depression and treatment of depression.

Besides teaching courses in abnormal psychology, behavior modification, elementary psychology, experimental psychology, introduction to clinical psychology and personality psychology, Vittengl served as the director of the Student Interview Project from 2004-2009.

He is a member of the Association for Behavioral and Cognitive Therapies, Midwestern Psychological Association and Sigma Xi.

Alumni Walker and Doris Allen established the Fellowship nine years ago with one of the largest outright gifts ever made to the Truman State University Foundation.

Walker W. Allen graduated from Truman (then Northeast Missouri State Teacher's College) in 1939 with a bachelor's degree in business education.

Truman President Darrell W. Krueger and Provost Troy Paino present the 2010 Walker and Doris Allen Fellowship Awards to Maria Nagan (top), John Quinn (middle) and Jeffrey Vittengl (bottom).

NEW STUDENT PROGRAMS NOW OFFERS GRANTS

Students can now apply for new grants to help sponsor events on campus. New Student Programs, through these grants, is looking to bolster three specific types of campus programming.

The overall goal of the grants is to increase the quality and quantity of the events in each of the three areas.

One fund will support events that bring together faculty and students.

A second fund will work with programs that celebrate diversity on campus.

The third fund is dedicated to supporting student initiated events that are not being sponsored by a student organization or University office.

These three areas cover a wide range of possible events and activities.

To apply for funding, students need to submit a grant application, which can be found at the New Student Programs website, <http://newstudents.truman.edu>.

The three funds are being administered by teams of New Student Programs academic advisers and Residence Life hall directors. These teams will review the forms on a rolling deadline and get back to students regarding the status of their applications.

New Student Programs serves the academic needs of first-year and transfer students as well as on-campus residents engaged in cocurricular learning. Their services include academic advising, tutoring, study skills development and specialized courses.

New Student Programs is funded through academic tuition and an annual allocation from Residence Life.

Sigma Delta Pi Receives National Recognition

On Feb. 1, 2010, Truman's Rho Rho Chapter of Sigma Delta Pi, the National Collegiate Hispanic Honor Society, was named co-recipient of this year's Frida Kahlo Award by the Society's Executive Council.

Founded in 2006 and named after a renowned 20th Century Mexican artist, the Frida Kahlo Award is presented annually to a chapter for its outstanding website. Selection is based upon the website's content, navigability, appearance, innovation and current maintenance. There are currently 567 chapters of Sigma Delta Pi.

Truman's achievement comes under the direction of its Sigma Delta Pi chapter adviser, Lucy Lee, professor of Spanish, along with the web design expertise of Becky Jackson.

Established in 1919 at the University of California, Berkeley, Sigma Delta Pi honors those who have completed three years of study

of college-level Spanish, including at least three semester hours of a course in Hispanic literature or Hispanic culture and civilization with a minimal grade point average of 3.0 in all Spanish courses taken.

Candidates must also rank in the upper 35 percent of their class - sophomore, junior, or senior - and must have completed at least three semesters or five quarters of college work. Graduate students can also be elected to membership upon completion of two graduate courses in Spanish with an average which, if continued, will make them eligible for a graduate degree.

With its national office at The Citadel in Charleston, S.C., Sigma Delta Pi is a member of the Association of College Honor Societies, the nation's only certifying agency for college and university honor societies.

Motter Scholarship Honors Longtime Teacher

A \$2,500 scholarship commemorating the life of Anna Catherine Brown Motter has been awarded at Truman.

A longtime area schoolteacher and mother of four, Catherine Motter passed away March 19, 2009 at the age of 99. She received a Bachelor's Degree in Education in 1934 from the University, then known as Northeast Missouri State Teachers College, at a time when women obtained only about five percent of college degrees awarded.

Motter paid for her own education by working her way through college by teaching in Audrain County Missouri rural schools at a time when a teaching degree was not required.

Many of her years of post degree teaching were in the rural schools of Adair County as well as three years in the Novinger, Mo., elementary school.

Throughout her life, Motter's interests were her family, music, traveling, church, reading and the beauty of nature. Those who knew her remember

her as a positive person who looked for and found the best in people. Motter and her husband, Marion Motter, made sure their four children received college degrees.

In her honor, her four children have awarded the Anna Catherine Brown Motter scholarship in the amount of \$2,500. The scholarship requires the recipient be a fifth-year student at Truman studying in the Master of Arts in Education program. They must also be a Missouri resident with a grade point average of 3.0 or better and have significant financial need.

The Anna Catherine Brown Motter scholarship recently was awarded to Clare Cummings, of Kansas City, Mo. An education and psychology major, Cummings plans to teach elementary education in the future.

During her time as a student at Truman, Cummings has volunteered as a Girl Scout Troop Co-Leader for third grade Brownies and has worked at the Kirksville Day Care Center.
