CHEMISTRY DEPT. RECEIVES NATIONAL RECOGNITION

The Truman Chemistry program recently tied for 24th place nationally based on the number of American Chemical Society (ACS)-accredited degrees awarded in the 2007-2008 time frame.

The number of accredited degrees awarded by Truman in the 2007-2008 academic year, 29, exceeds all but one of the Ivy League schools.

Truman also awarded 14 more accredited degrees than the entire rest of the MIAA conference.

The most accredited degrees any other MIAA school awarded was six. Truman also awarded one less than the combined total of all four University of Missouri campuses.

Lee Advising Award Presented to Price and Young

Barbara Price, associate professor of English, and Janice Young, associate professor of health science, recently received the William O'Donnell Lee Advising Award.

Dr. Jeanne Stephens Lee Blackmar established the Lee Advising Award in honor of her late husband who was a member and chair of the University's Board of Regents during the 1970s. The award pays tribute to excellent advisers, encourages professional development and

demonstrates the importance of academic advising on the Truman campus.

Price and Young will each receive a \$1,000 development fund to be used for travel to advising conferences or institutes, research materials and other relevant items. All full-time faculty advisers are eligible for the annual award.

Recipients of the Lee Advising Award are nominated by students and colleagues and are ultimately selected by a committee.

Provost and Vice President for Academic Affairs Troy Paino presents the Lee Advising Award to Barbara Price (left) and Janice Young (right). The award was established by Dr. Jeanne Stephens Lee Blackmar in honor of her late husband.

Bill Nye the Science Guy to Perform at Truman

Scientist, inventor, comedian and author Bill Nye will perform at Truman April 16.

The event will be hosted by the Student Activities Board. Nye will take the stage in Baldwin Auditorium at 7 p.m. The event is free for students, faculty and staff with a Truman ID. General admission tickets are \$5.

Nye has spent most of his life making science and technology entertaining and accessible. He has attracted adults and children to the wonders of science with his wit and enthusiasm, which also helped to garner 28 Emmy Awards for his PBS/syndicated "Disney Presents Bill Nye the Science Guy."

He uses his trademark humor to help viewers gain understanding on big issues, like the environment and sustainability, and presents

positive, upbeat solutions to these critical problems.

Serving as an ambassador for science education, Nye has traveled across the United States and has served on children's education, science and television committees, and acted as an advocate for children's safety and health.

An accomplished author, Nye has written five books. The most recent is "Bill Nye the Science Guy Considers the Big Blue Ocean."

Nye received a mechanical engineering degree from Cornell University, where he studied under Carl Sagan. He joined Boeing Commercial Airline Company in Seattle, where he worked on flight control systems until his love of entertainment led to work as a stand-up comic and his eventual creation of the persona of the Science Guy.

TUNNEL EXPLORES OPPRESSION IN SOCIETY

The Blanton Nason Brewer Hall basement will be transformed into the Tunnel of Oppression and open for tours from 7-9 p.m. March 23-25.

The Tunnel of Oppression allows participants to fully engage in the experience of several forms of oppression.

The event, which first began at Western Illinois University, has been adopted by many other universities nationwide and has been a positive diversity experience for participants who go through the tunnel.

The Tunnel of Oppression was hosted at Truman for the first time last year with nearly 350 individuals in attendance, and more than 70 volunteers.

This year's tunnel will include rooms that focus on seven different areas of oppression from past and present American culture.

The areas are focused on immigration, poverty, physical disabilities, mental disabilities, religion, racism and sexual orientation.

The individuals who attend this event will experience a part of society they may not have otherwise seen or experienced.

"Breaking Down the Wall," a reflection program, has been added to the program to help break down stereotypes that feed oppression.

"Breaking Down the Wall" will take place March 31 outside of Blanton Nason Brewer Hall.

Sponsors for the Tunnel include: Funds Allotment Council, Blanton Nason Brewer Hall Senate, and the Residence Life Diversity Committee.

"Breaking Down the Wall" is sponsored by the Multicultural Affairs Center.

Communication Disorders Students Take In the Capitol

Communication disorders graduate students enjoy the Missouri-Speech-Language-Hearing Association Legislative Day Feb. 16 at the Capitol in Jefferson City. While there, the Truman students were introduced on the house floor by Rep. Rebecca McClanahan. Faculty representatives were Andrea Richards and Melissa Passe.

Author Wins Top Academic Prize

Natalie Zemon Davis, author of a forthcoming book by Truman State University Press, won the 2010 Holberg Prize, an annual academic Norwegian prize, for her outstanding scholarly work, and her imaginative approach to history coupled with her intensive archival work.

The award is given to scholars in the arts and humanities, social sciences, law and theology, and is worth about \$760,000.

Davis' book, "A Passion for History," will be published in May by Truman State University Press in its Early Modern Studies series. It is a conversation with history

professor Denis Crouzet about her remarkable career in historical research and writing. First published by the French press Albin Michel, Truman State University Press got the rights to publish the English edition last year.

Davis' classics include "The Return of Martin Guerre," "Women on the Margins" and "Trickster Travels." Her published works have been translated into many languages and have added considerably to understanding early modern society and culture.

"A Passion for History" may be ordered online at <http://tsup.truman.edu> or at the Truman Bookstore.

Be a Buddy to Special Olympics Athletes

Come cheer on the athletes, hang out at Olympic Village between events and work one-on-one with the athletes. Lunch is provided. Grab a friend, put on a smile and sign up to be a buddy for the Spring Special Olympics in Kirksville on April 17. If interested, e-mail Lara at lk8154@truman.edu.

TRUMAN SYMPHONY ORCHESTRA TAKES THE STAGE

The Truman State University Symphony Orchestra, under the direction of Sam McClure, will present the annual Gold Medal Concert at 8 p.m. March 27 in the Ophelia Parrish Performance Hall.

This concert is a showcase for student achievement and will feature three students who were prizewinners in the recently completed Gold Medal Competition. Featured students are: Martha Sharff, soprano; Jenny Choo, piano; and Eric Schweizer, alto saxophone. They will perform music by Weber, Shostakovich and Husa. The orchestra will also perform Symphony No. 2 by the Russian composer and chemist Alexander Borodin.

The concert is free and open to the public.
