Science and Mathematics Faculty Awarded More Than \$2 Million in Grants

Faculty members in the School of Science and Mathematics recently received more than \$2 million in grants from the National Science Foundation (NSF) and Binational Science Foundation (BSF) to purchase equipment, provide students with scholarships, promote curricular innovations and conduct research on topics ranging from ectoparasite biology to mathematical biology.

Timothy Walston, Zhong (John) Ma, Brent Buckner, Diane Janick-Buckner and Jose Herrera received \$196,304 for an NSF-MRI (Major Research Instrumentation) grant entitled, 'Acquisition of Confocal Microscopy Instrumentation to Enhance Undergraduate Research at Truman State University.' This grant will fund the purchase of a confocal microscope that will be placed in Truman's Integrated Microscopy Suite. Students and faculty members of ATSU and Truman will use the microscope to study cellular process in living organisms.

Laura Fielden received \$120,000 from the BSF (U.S.-Israel) for a proposal entitled, 'Between-host phylogenetic distance and host selection in fleas.' The U.S.-Israel BSF promotes scientific relations between the U.S. and Israel by supporting collaborative research projects between Israel and U.S.-based researchers. This collaborative grant with faculty members at Ben Gurion University (Israel) will provide summer research

opportunities in Israel for undergraduate and graduate students for up to four years.

Jason Miller, Barbara Kramer and Timothy Walston received \$1.2 million for an NSF-PRISM (Proactive Recruitment in Science and Mathematics) proposal entitled, 'Scientists Prepared, Enriched, and Challenged Through Research-based Activities (SPECTRA).' The NSF-SPECTRA program is a five-year initiative to serve regional and national needs by increasing Truman's capacity to recruit students to the study of STEM (Science, Technology, Engineering, and Mathematics) and to support those pursuing STEM baccalaureate degrees. The majority of the funds will be directed toward student scholarships, but the program also features the development of an integrative freshman seminar and three new integrative, inquiry-based courses spanning biology, chemistry and mathematics.

Pamela Ryan, Brent Buckner, Jason Miller and Jon Gering received \$500,000 for an NSF-UBM (Interdisciplinary Training for Undergraduates in Biological and Mathematical Sciences) proposal entitled, 'Integrative Research-focused Experiences and Curriculum in Mathematical Biology.' This five-year grant provides funding for interdisciplinary research-focused learning communities and module and workshop development to support the integration of mathematics in the biology curriculum.

MISSOURI GOVERNMENT INTERNSHIP INFORMATIONAL MEETING

An informational meeting about the Missouri Government Internship will take place at 5:30 p.m. Sept. 30 in the Student Union Building Spanish Room. Pizza will be provided. The Missouri Government Internship Program offers a unique opportunity for students to intern at the Capitol in Jefferson City, Mo., with a public official, legislator or state agency during the Spring 2010 semester. Interns receive a stipend of \$2,500 and up to 15 hours of credit. Applications are available online at <http://career.truman.edu/Internships/mogovBrochure.asp>. The internship is open to all majors. For more information, contact Heidi Templeton at 785.4016 or at heidi@truman.edu, or contact Candy Young at 785.4650 or at cyoung@truman.edu.

GLAMOUR MAGAZINE SEEKS APPLICANTS

Glamour magazine invites students to apply for the 2010 Top 10 College Women Competition.

This competition recognizes the exceptional achievements and academic excellence of female college juniors (third-years) attending college in the United States and Canada. The competition serves as an opportunity for talented students to be rewarded for their leadership roles on campus and in the greater community. It is also an opportunity to spotlight the University.

Winners receive \$3,000, coverage in an issue of the magazine and a trip to New York City where they will meet with top female professionals. Deadline for entries is Dec. 1.

The 2009 winners and the electronic application for the 2010 competition can be found at <http://www.glamour.com/about-top-10-college-women>.

Please direct any questions regarding the competition to ctw@glamour.com.

Author Visits Truman for Grad Week

Donald Asher, internationally acclaimed author and "America's Job Search Guru," continues his visit to Truman, which began Sept. 28 and runs through Oct. 2, as part of the Career Center's annual Graduate School Week program.

Asher has published 10 books, which he wrote for online editions of the Wall Street Journal. He also works as the education columnist for MSN Encarta.

Throughout the week, Asher will give presentations on how to write a personal statement, how to go to grad school for free and how to prepare now

for grad school. During the week, 10 universities will have representatives on campus to provide information about their programs.

Visiting schools include Webster University, the University of Tulsa, the University of Missouri-Columbia, A.T. Still University, Aquinas Institute and the Harry S. Truman School of Public Affairs. In addition, Truman will provide information about its graduate programs in accounting, biology, communication disorders, education, English and music.

Testing Center Receives Upgrades

The Truman Assessment and Testing Office has announced the opening of its PearsonVUE Select computer-based testing (CBT) center.

This new addition to the Assessment and Testing Office allows Truman to administer the Graduate Management

Assessment Test (GMAT) exam for students wishing to pursue advanced study in business and management, as well as the Health Fitness Specialist (HFS) exam for exercise science majors.

In addition, the Assessment and Testing Office continues to offer the general GRE, Praxis

I, MCAT, and TOEFL tests in their ETS CBT.

Hours of operation for both CBT centers, and more information about other exams offered by Assessment and Testing, can be found on the office website at <http://testing.truman.edu>.

Forensics Team Opens Season with Wins

In the first weekend of competition for the semester, members of the Truman Forensics Union opened their season with multiple wins on the campus of Purdue University in West Lafayette, Ind., at the annual Boilermaker Special Forensics Tournament.

Truman took second place in Debate Sweepstakes, which is a measure of overall team quality, and earned nine new qualifications to the national championship tournament.

The weekend's victories placed Truman ahead of colleges from Texas, Michigan and across the Midwest, including perennial Lincoln-Douglas contenders Central Michigan University.

In Lincoln-Douglas, all four of the debaters advanced to elimination rounds, qualifying the entire varsity squad for competition at the national championship tournament next March.

Sophomores Christian Johns (Carthage, Mo.) and Elizabeth Hatting (Omaha, Neb.) were tournament co-champions after winning their semifinal rounds. Juniors Sarah Backhaus (Liberty, Mo.) and Dylan Clark (St. Louis, Mo.) were quarterfinalists.

In individual events, freshman Jessica Petrie (Bellville, Ill.) placed first in Impromptu Speaking and second in Extemporaneous Speaking in her first collegiate competition.

Senior Susan Presley (Austin, Texas) also placed sixth in Impromptu. Sophomore Andrew Grojean (Blue Springs, Mo.) placed second in After Dinner Speaking and fifth in Prose Interpretation.

"Anytime you can break 100 percent of your debate slots, that shows a level of intensity that will serve the team well over the course of a season," said Kris Stroup, varsity debate coach.

Next week, the team travels to Western Kentucky University in Bowling Green, Ky., for another competition.

Anyone interested in competing in forensics should contact Kristi Scholten, director of forensics, at kscholten@truman.edu.

NOTABLES

Michael R. Bump, associate professor of music, served as Artist-Faculty and Principal Timpanist at the 2009 Sewanee Summer Music Festival in Sewanee, Tenn. During the five-week festival, he performed the U.S. premiere of Academy Award-Winning composer George Fenton's, "Five Parts of the Dance" with Festival colleagues Russell DeVuyst, associate principal trumpeter, Montreal Symphony, and Regina Yeh, professor of piano, Pacific Lutheran University.
